And you're the only one I'll call/ I'll call/ Someday when my home's all paid for And you're the only

you/I don't care if you're tired Or sick If you're oh so lonely/ I still won't come calling to you/ But
baby, baby, if I'm ever broke/I won't come a-calling to you/ Cause you'll know I'll be coming home to

What I should do to remove the "© 2012" text? I've already tried to change the "language and regional" but this is not working for me. Thanks A: You are facing a few problems: this comes from that the file got created on a system that was set to something different (de_DE.ISO8859-1). as the file hasn't got a UTF-8 or UTF-16 character set encoding (but ISO-8859-1) - it will be a problem that your EDITOR does not support this character set. To get your PC running the UTF-8 character set, just install the system wide "Accessibility" item or Microsoft's "Relicensing" which has the name

"Accessibility Toolkit" (it is important to note that the names of these utilities are misleading, the functions they are doing are quite different) About the license issue, you'll need to use "license.ini" under the root folder of your folder named "Windows" (or "Program Files", but probably your "Program Files" is located in another folder, so adapt the path) to add the required license. Here is an example of the license.ini of my Windows Live account: [License]

```
SoftNumberEncoding=Windows-1255 HardNumberEncoding=Windows-1255
FileEncoding=Windows-1255 ApplicationName=Microsoft.NET Framework 3.5 Service Pack 1 (x86)
RegistrationLocks=v1.0 .SoftDevice=v1.0 DataChannelEncoding=Windows-1255 You will need to
create a file LICENSE.rtf (with your document information) and add the content of the file
"license.ini", after that you'll need to run "Accessibility Toolkit" as administrator. // Copyright 2017
